**Statement on Auditing Standards, Number 128** Feb 09 2021 As a result of its Clarity Project, the Auditing Standards Board (ASB) has issued Statement on Auditing Standards (SAS) No. 128, Using the Work of Internal Auditors, to supersede SAS No. 65, The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements (AICPA, Professional Standards, AU sec. 322 and AU-C sec. 610), and amend: SAS No. 122, Statements on Auditing Standards: Clarification and Recodification, section 315, Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement (AICPA, Professional Standards, AU-C sec. 315); Various other sections in SAS No. 122 (AICPA, Professional Standards, AU-C secs. 200, 220, 230, 240, 260, 265, 300, 402, 500, 550, and 600); and Statement on Quality Control Standards No. 8, A Firm's System of Quality Control (Redrafted) (AICPA, Professional Standards, QC sec. 10). SAS No. 128 addresses the external auditor's responsibilities when using the work of internal auditors if it includes (a) using the work of the internal audit function in obtaining audit evidence and (b) using internal auditors to provide direct assistance under the direction, supervision, and review of the external auditor. Consistent with International Standard on Auditing (ISA) 610 (Revised 2013), SAS No. 128 introduces the concept of a systematic and disciplined approach, which is not included in SAS No. 65. Paragraph 13 of SAS No. 128 would require, among other things, as a prerequisite to being able to use the work of the internal audit function, that the external auditor evaluate the application by the internal audit function of a systematic and disciplined approach, including quality control. Paragraphs A12–A14 of SAS No. 128 provide application guidance with regard to the application of a systematic and disciplined approach. The ASB believes that relative to SAS No. 65, this requirement represents an additional and explicit evaluation that the external auditor would need to perform to conclude on the appropriateness of using the work of internal auditors.

**Confessions of an Economic Hit Man** Jul 29 2022 Perkins, a former chief economist at a Boston strategic-consulting firm, confesses he was an "economic hit man" for 10 years, helping U.S. intelligence agencies and multinationals cajole and blackmail foreign leaders into serving U.S. foreign policy and awarding lucrative contracts to American business.

**World Development Report 2020** Oct 20 2021 Global value chains (GVCs) powered the surge of international trade after 1990 and now account for almost half of all trade. This shift enabled an unprecedented economic convergence: poor countries grew rapidly and began to catch up with richer countries. Since the 2008 global financial crisis, however, the growth of trade has been sluggish and the expansion of GVCs has stalled. Meanwhile, serious threats have emerged to the model of trade-led growth. New technologies could draw production closer to the consumer and reduce the demand for labor. And trade conflicts among large countries could lead to a retrenchment or a segmentation of GVCs. **World Development Report 2020: Trading for Development in the Age of Global Value Chains** examines whether there is still a path to development through GVCs and trade. It concludes that technological change is, at this stage, more a boon than a curse. GVCs can continue to boost growth, create better jobs, and reduce poverty provided that developing countries implement deeper reforms to promote GVC participation; industrial countries pursue open, predictable policies; and all countries revive multilateral cooperation.

**ASEAN Corporate Governance Scorecard** May 27 2022 Corporate governance principles provide guidance on how corporations should operate. Adoption of international corporate governance best practices leads to long-term sustainability and resilience, and can be a competitive tool to attract foreign investments. The Asian Development Bank, in partnership with the ASEAN Capital Markets Forum, have jointly developed the ASEAN Corporate Governance Scorecard, an assessment based on publicly available information and benchmarked against international best practices that encourage publicly listed companies to go beyond national legislative requirements. This report can be used by capital market regulators and other stakeholders as a reference to understand the current corporate governance standards across the region. It is also a useful diagnostic tool to guide improvement of corporate governance standards.

**Big Business, Poor Peoples** Sep 18 2021 Transnational corporations are one of the most important actors in the global economy, occupying a more powerful position than ever before. In their persistent battle to increase profits, they have increasingly turned to the developing world, a world that holds many attractions for them. But what is their impact on the poor? Now in its second edition, Big Business, Poor Peoples finds that these corporations are damaging the lives of millions of poor people in developing countries. Looking at every sector where transnational corporations are involved, this vital book is packed with detail on how the poor are affected. The book exposes how developing countries' natural resources are being ceded to TNCs and how governments are unwilling or unable to control them. The author argues that TNCs, answerable to no one but their shareholders, have used their money, size and power to influence international negotiations and taken full advantage of the move towards privatization to influence government policies; sovereignty is passing into corporate hands, and the poor are paying the price. But people are fighting back: citizens, workers, and communities are exposing the corporations and looking for alternatives. The first edition of this path-breaking book put the issue of transnational corporations and the poor firmly on the agenda. This second edition contains significant new and updated material and is an essential read for anyone who wants to know more about the effects of corporate power on the poor.
