Feminism and Social Change May 15 2021
"Fresh, original, and brings together in one place a set of authors who are very important to the field." -- Mary Margaret Fonow, coeditor of *Beyond Methodology: Feminist Scholarship as Lived Research* "Finally, a collection dedicated to demonstrating precisely what it means to do feminist research " -- Madonna Harrington Meyer, University of Illinois at Urbana-Champaign How likely is feminist research to promote change in society? Are some research methods more successful at bringing about

change than others? Contributors to this volume discuss principles of feminist inquiry, providing examples from their own experience and evaluating research practices for their potential to promote social change. The twelve chapters cover methodologies including ethnographic study, in-depth interviewing, naming, and going public. Also explored are consultative relationships between academic researchers and activist organizations, participatory and advocacy research processes, and coalition building.

Entrepreneurship and Local Economic

Development Aug 18 2021 This book focuses on the nature and role of entrepreneurship in modern developed and emerging economies and societies, its relation to governments and universities, and its role in the often-forgotten informal economy. The aim is to position entrepreneurship in the post-crisis context and explore how its relation to universities and governments contributes to explain the countries' and territories' growth performance and resilience or vulnerability to the crisis. The accent is particularly on processes and patterns at local level and in small and medium-sized

enterprises in local economic systems and districts, local systems of innovation, and the types and configurations of innovation these give origin to. With globalization, entrepreneurship has become fundamental for the competitiveness of territories and countries, for policy management and for development. The local dimension is fundamental because of agglomeration economies and effects, the advantages of proximity and the nature of knowledge and information. Furthermore, territories carry to the centre-stage tacit knowledge, localized social capital, embeddedness and interpersonal relations as fundamental components of their endogenous socio-economic development and competitiveness. When local systems are connected in a horizontal network, they contribute to the strength of national and international systems. To play a constructive role from this perspective, entrepreneurship must avoid local entrenchment and support the local economy to upgrade and be competitive. To do this, the entrepreneurs' interaction and alliance with universities and governments is a must for those countries and localities wanting to emerge. This requires that enterprises, universities and governments create synergies and spill-overs to their mutual advantage.

Rhetorical Theory Feb 21 2022 From the moment we begin to understand the meanings of words and symbols, we have used rhetoric. It is how we determine perceptions of who we are, those around us, and the social structure in which we operate. *Rhetorical Theory, Second Edition* introduces a broad selection of classical and contemporary theoretical approaches to understanding and using rhetoric. Historical context reveals why rhetorical theories were created, while present-day examples demonstrate how they relate to the world in which we live. Borchers and Hundley present conceptual topics in a succinct and approachable manner. The text is organized topically rather than chronologically, so similarities and differences are easily detected in central ideas. Each chapter is enhanced by the inclusion of theorist biographies, applications of theory to practice, and Internet exercises. The Second Edition expands coverage on mediated rhetoric, feminist rhetoric, alternative rhetorical theories

including Afrocentricity and intersectionality, cultural and critical rhetoric, and postmodern implications of rhetoric.

Tales of the Serendip Dec 02 2022 The Tales of the Serendip take place in a virtual pub that exists only in the minds of the fantasy writers who crafted the Tales of the Serendip. It's a place where, given a few rules and a common backdrop, writers can create small vignettes to explore new story lines, break writer's block, or experiment with new characters. Plus it helps to keep them all out of the psychiatric ward. Where else would you go to sip fine Akuvian cinnamon wine and have a heart-to-heart with one of your more troubling characters? Or maybe you choose to sit in the Writer's Nook discussing magic spells and comma usage with other writers while slugging down mugs of Korone Dwarven Dark Ale. Bar fights, bad puns, a bouncer named Grendel (yes, The Grendel), and a bartender who can dispense advice and drinks simultaneously, all exist inside this fabulous place. The Tales of the Serendip will bring you inside to see the fabulous writing treasures fueled by the collective imaginations of people who are destined to become tomorrow's Asimovs, Heinleins and Le Guins.
