Nanomaterials for Clinical Applications Sep 18 2021 *Nanomaterials in Clinical Medicine: Case Studies in Nanomedicines* focuses on the nanomaterials that can be formulated as drug delivery vehicles, such as liposomes, micelles, nanoemulsions and nanogels. Their physicochemical, morphological, thermo-dynamical and nanotoxicological properties are analyzed with respect to the design and development of drug delivery nanosystems for the encapsulation of an active pharmaceutical ingredient and its controlled release. Each chapter covers basic properties, the nanosystem (e.g., liposomes), the added value in drug delivery and targeting, and future perspectives. Case studies and examples of how nanomaterials are being used in clinical medicine, including marketed liposomal medicines and medical utility and regimens are also included. Particular attention is given to new nanocarriers, such as elastic liposomes, lipid polymeric hybrid nanoparticles, organogel, nanofibers carbon nanomaterials, quantum dots and inorganic nanoparticles. This book is an important information source for those wanting to increase their understanding of what major nanomaterials are being used to create more effective drug delivery systems. Summarizes the major nanomaterials used in clinical medicine, explaining how their properties make them suitable for this purpose Explains how nanomaterials are used to create increasingly efficient drug delivery vehicles Includes real-life examples, demonstrating how nanomaterials are being used in medical practice

R.P. Abd. Sukur Notoasmoro Aug 06 2020 MADURA masih mempunyai “seuntai melati” ketika tradisi dan budayanya mulai tenggelam, dan hampir dilupakan orang. R.P. Abd. Sukur Notoasmoro), sosok bangsawan yang masih setia memelihara tradisi dan budaya warisan dari nenek moyangnya, yang menurutnya pula budaya dan tradisi Madura andhap asor (sopan santun, ramah dan menghargai orang lain) sebagai budaya Timur yang masih utuh. Dialah “seuntai melati” yang harum semerbak, mewangi di antara bergesernya peradaban, dan menyeruak di antara pertukaran jaman, sehingga Madura masih memiliki ‘pamor’ yang tinggi di pesisir Pulau Jawa. Dialah, R.P. Abd. Sukur Notoasmoro, sosok tokoh satu-satunya yang mau meluangkan waktu berlama-lama untuk (terus) mengumpulkan keping-keping budaya yang berserakan di sana-sini.

The Report: Indonesia 2017 Dec 10 2020 Although Chinese and global demand, low commodity prices and rising wages will continue to challenge trade growth in 2016, Indonesia remains on a positive trajectory. Rising domestic demand, increasing liberalization measures, improvements to the investment climate and a shift towards value-added production will bolster both exports and investment. At the same time, new trade agreements with the world's largest economies look set to drive long-term trade expansion. Prudent government policy, an ambitious reform agenda and rising recognition of the role of the private sector should help to keep investment and trade stable in 2016, and despite exports and growth have dipped in recent years, the country is well positioned to make the crucible transformation from a consumption- to investment-based economy.

THE CLIMBERS: 15 Langkah Strategis Mendaki Karier Puncak (Edisi Revisi) Jun 15 2021 The Climbers?si pendakiÑadalah sebutan untuk mereka yang seumur hidup membaktikan dirinya pada pendakian. Tanpa menghiraukan latar belakang keuntungan atau kerugian, nasib baik atau nasib buruk, dia terus mendaki! The Climbers adalah pemikir yang selalu memikirkan kemungkinan-kemungkinan, dan tidak pernah membiarkan umur, jenis kelamin, ras, kekurangsempurnaan fisik atau mental, atau hambatan lainnya untuk menghalangi pendakiannya, pantang menyerah. Pertanyaan yang abadi di dalam diri para eksekutif muda adalah bagaimana cara kita mencapai puncak di dalam suatu organisasi. Bahkan Òpuncak karierÓ pun acap kali identik dengan posisi yang lebih tinggi. Hal yang lumrah, karena memang demikian prosesnya. Individu tertentu ada pula yang sudah mencapai puncak namun belum puncak tertinggi, misalnya menjadi executive vice president, senior vice president, kepala divisi, vice president, senior manager, group head, bahkan di jenjang di bawahnya. Proses pendakian merupakan suatu proses yang tidak singkat dan terus-menerus tanpa henti. Seperti para ÒclimbersÓ pada umumnya, mendaki adalah suatu proses pencapaian diri (achievement), dan mereka tidak ÒpuasÓ hanya mencapai suatu puncak gunung saja. Tidak ada kata ÒgagalÓ di dalam proses pendakian. Kegagalan hanya ada jika sebelum memulai mendaki seseorang mengatakan kepada dirinya Òaku akan gagalÓ. Bagaimanapun, menjadi pimpinan di jenjang apa pun adalah suatu keberhasilan. Namun pencapaian keberhasilan akan makin tinggi jika jenjang kepemimpinan yang diraih lebih tinggi. Buku ini memuat 15 (lima belas) kiat strategis untuk menjawab tantangan pendakian menuju puncak, terutama puncak kepemimpinan.

The Art of Reflective Thinking (UM Press) Nov 01 2022 If you have been practicing your vocation without critical reflection, this book is for you. ICIIS 2020 Dec 02 2022 We are delighted to introduce the proceedings of the 3rd International Colloquium on Interdisciplinary Islamic Studies. It is annual event hosted and organised by the Graduate School of State Islamic University of Syarif Hidayatullah Jakarta. It was fully 2 days event 20-21 October 2020 by Virtual (online) mode with 3 keynotes speakers: Prof. Abdel Aziz Moenadil from the University of Ibn Thufail, Maroko, Prof Wael Aly Sayyed from the University of Ain Syams, Cairo, Mesir, and Assoc. Prof. Aria Nakissa, Ph.D. from Harvard University. The proceeding consisted of 41 accepted papers from the total of 81 submission papers. The proceeding consisted of 6 main areas of Interdisciplinary Islamic Studies. They are: Islam and medicine, Islam and Science and Technology, Islam and Psychology, Islam and Education, Quran and Hadits, and Islamic Studies with other various aspects. All papers have been scrutinized by a panel of reviewers who provide critical comments and corrections, and thereafter contributed to the improvement of the quality of the papers. Research in Islamic studies and Muslim societies today also increasingly uses interdisciplinary methods and approaches. In order to produce more objective findings, the researchers looked at the need to combine several methods or approaches to an object of study, so that they had additional considerations needed. These additional considerations add a more comprehensive perspective. In this way, in turn they can come up with better findings. Interdisciplinary Islamic studies dispute that Islam is monolithic, militaristic, and primarily Middle Eastern. We strongly believe that ICIIS conference has become a good forum for all researcher, developers, practitioners, scholars, policy makers, especially post graduate students to discuss their understandings of current processes and findings, as well as to look at possibilities for setting-up new trends in SDG and Islamic Interdisciplinary Studies. We also expect that the future ICIIS conference will be as successful and stimulating, as indicated by the contributions presented in this volume.
