Thank you for downloading **deri permana**. Maybe you have knowledge that, people have search hundreds times for their chosen novels like this deri permana, but end up in infectious downloads.

Rather than enjoying a good book with a cup of coffee in the afternoon, instead they juggled with some malicious bugs inside their desktop computer.

deri permana is available in our book collection an online access to it is set as public so you can download it instantly.

Our books collection saves in multiple countries, allowing you to get the most less latency time to download any of our books like this one. Kindly say, the deri permana is universally compatible with any devices to read

*Islam - Essays in Scripture, Thought and Society* Apr 25 2022 This volume contains 17 articles on various aspects of Islamic thought in the Middle East and in Southeast Asia. The first 9 articles concentrate especially on the Qur'an and its exegesis, "Kalimah" and Sufism; the second 8 articles deal with Javanese Islam, and with Islam and modernity in Southeast Asia.

**Jaka Someh The Silat Warrior** Jan 03 2023 Jaka Someh is an easy-going man and happy to help. Since he was a teenager he has been practicing martial arts with discipline and hard. Jaka Someh became a great warrior, but his heart was still kind and not arrogant. Even though he has defeated many evil martial figures who are known to be powerful and feared. Jaka Someh has a sincere and patient heart. He tends to prefer to give in and avoid conflict with others. So that makes him a less assertive person. Not firm in making decisions. Perhaps because of his lack of firmness, Jaka Someh felt bad for rejecting Pak Rohadi's request to marry his daughter who was pregnant out of wedlock. Mr. Rohadi's daughter named Asih. Asih is pregnant and left by her lover. Asih is actually a beautiful woman and has even become a village flower. Asih actually didn't want to marry Jaka Someh, but in order to save the dignity of the family she was forced to follow her father's wish, to marry Jaka Someh. Although Jaka Someh is only a substitute husband for Asih, Jaka Someh tries to love Asih with all his heart, but unfortunately, Asih's attitude often humiliates Jaka Someh, who has officially become her husband. Jaka Someh's appearance is indeed too simple, making him a lot of belittled and considered stupid by others. Even by Asih, his own wife. Who had the heart to betray his holy love. Even though Jaka Someh has sacrificed a lot for Asih. He always tries hard to always make his wife happy, but still Asih doesn't want to respect Jaka Someh. Even Asih had the heart to cheat on Jaka Someh. Two years after her marriage to Jaka Someh, Asih is reunited with her former lover who once got her pregnant. They also re-establish a love affair. Their affair was finally discovered by Jaka Someh. Jaka Someh felt very angry, confused, sad and disappointed. Jaka Someh wanted to kill the man who had trampled on his pride. But he could not do it, because he could not bear to his wife and stepson whom he loved very much. Sad, angry, disappointed but trapped by sincere feelings of love and respect. Jaka Someh became very confused and indecisive. So what will Jaka Someh do to deal with his troubled household? Should he divorce his wife? Or did he repay his wife's affair with another affair? or just go, wander far away from Asih who has had the heart to have an affair? Will his household problems turn him into a different person? On the other hand, as a warrior, Jaka Someh is required to defend and protect people who are experiencing oppression from gangs of criminals. At that time a powerful warrior appeared who had torn apart the martial world. His name is Ki Jabrik. Ki Jabrik is the leader of a gang of criminals who have defeated many martial arts figures. Ki Jabrik's gang has oppressed many people and not a single warrior dares to face Ki Jabrik and his gang. Can Jaka Someh face Ki Jabrik and his gang who are known to be powerful and cruel?

**Merangkai Serpihan Literasi** Jan 29 2020 Merangkai Serpihan Literasi PENULIS: Tim LRCKB Ukuran : 14 x 21 cm ISBN : 978-623-283-396-8 Terbit : Juli 2020 [www.guepedia.com](#) Sinopsis: Memahami Makna Literasi Awal mengenal Tim literasi kabupaten Bandung pada tahun 2015, saat mereka mengenalkan program tantangan membaca bagi seluruh peserta didik di wilayah Kabupaten Bandung. Program ini sangat menarik dan luar biasa, karena dapat meningkatkan minat dan budaya membaca di kalangan peserta didik SD dan SMP. Membaca merupakan kewajiban setiap insan yang tertuang dalam kitab suci Al-Qur'an. Membaca tidak hanya menggunakan mata, tetapi seluruh panca indra dapat digunakan untuk membaca, karena membaca adalah menangkap makna baik berupa tulisan maupun apa-apa yang terjadi pada alam di sekitar kita. Iqra atau membaca harus dilaksanakan dari hulu ke hilir. Hulumnya adalah konsep, proses dan konteks serta hilirnya adalah refleksi/manfaat untuk dirinya sendiri dan orang lain yang didapatkan setelah proses membaca. Refleksi juga dapat berupa karya maupun prestasi. Membaca dan menulis merupakan literasi yang paling mendasar sebagai pondasi dalam memahami 6 literasi dasar lainnya, yaitu literasi numerasi, literasi sains, literasi finansial, literasi digital, serta literasi budaya dan kewargaan. Dan hal yang penting juga adalah literasi spiritual, sehingga perlu ditambahkan agar bisa mencapai kebahagiaan hidup dunia dan akhirat. Dalam kesempatan ini, saya sangat mengapresiasi dan berterimakasih pada Tim LRC Kabupaten Bandung yang telah berhasil merangkai serpihan literasi dalam

tulisan buku ini. Tulisan ini adalah paparan konsep literasi yang saya sampaikan dalam berbagai kegiatan. Semoga bermanfaat dan menginspirasi bagi siapapun yang mendapatkan refleksi/hikmah setelah membaca buku ini. Salam Literasi... **Actinoid Series Elements—Advances in Research and Application: 2012 Edition** Jun 15 2021 Actinoid Series Elements—Advances in Research and Application: 2012 Edition is a ScholarlyEditions™ eBook that delivers timely, authoritative, and comprehensive information about Actinoid Series Elements. The editors have built Actinoid Series Elements—Advances in Research and Application: 2012 Edition on the vast information databases of ScholarlyNews.™ You can expect the information about Actinoid Series Elements in this eBook to be deeper than what you can access anywhere else, as well as consistently reliable, authoritative, informed, and relevant. The content of Actinoid Series Elements—Advances in Research and Application: 2012 Edition has been produced by the world's leading scientists, engineers, analysts, research institutions, and companies. All of the content is from peer-reviewed sources, and all of it is written, assembled, and edited by the editors at ScholarlyEditions™ and available exclusively from us. You now have a source you can cite with authority, confidence, and credibility. More information is available at <http://www.ScholarlyEditions.com/>.

*Ikhtisar roman* Sep 26 2019 Criticism and summary of selected Indonesian novels.

**Theoretical and Empirical Analysis in Environmental Economics** Mar 25 2022 This monograph presents potential remedies for some of the current environmental issues in developed countries in a theoretical or empirical manner with the interdisciplinary approaches of economics, statistics, and engineering. The book illustrates effective economic and environmental policies for environmental challenges and factors where corrective policies to date may have failed. The importance of this essential book has is related to the transition in the major concerns of the people or governments in developed countries shifting from economic growth to the stability of life and environmental preservation as their economies have matured. The environmental issues dealt with here include forest environment tax introduced as part of local taxes, air pollution reduction policies for mobile emission sources, introduction of renewable energies and power fuel cell technology, the mechanism of city agglomeration and dispersion, and measurement of environmental sustainability. In analytical methods, some research employs theoretical approaches such as the mathematical economic model or nonlinear dynamic model. Other analyses are implemented with empirical or statistical tools such as the long-run general equilibrium model, the input–output model, and the dynamic optimization model, among others.

**ISMINA 2021** Sep 18 2021 We are delighted to introduce the proceedings of the 5th International Conference on Sports, Health, and Physical Education (ISMINA 2021) with the theme “Transformation on Sports, Health and Physical Education Facing the Global Pandemic”. This conference has brought researchers, educators and practitioners around the world. The 5th ISMINA 2021 Proceedings contains 75 articles. Consisting of 35 sports-themed articles, 25 health-themed articles, and 15 physical education-themed articles. The 5th ISMINA 2021 collaborates with ICSSPE, APPORI and several leading Indonesian universities in the fields of physical education, sports, and health education. The 5th ISMINA 2021 aims to gather all knowledge and transformation to face the global pandemic in the fields of physical education, health, and sports. Finally, we would like to express our gratitude and appreciation for all committee and the reviewers who helped us maintain the high quality of manuscripts included in the proceedings published by EUDL. Also, we are thankful to all the authors who submitted papers, because of which the conference became a story of success.

**Advanced Studies in Efficient Environmental Design and City Planning** Jul 17 2021 This book explains how learning from past mistakes in urban design can help to enhance sustainable cities and how the principles of Green Urbanism can yield more resilient urban settlements. Environmental design is a fundamental principle in shaping cities. However, environmental challenges like increased resource consumption, water degradation and waste-related issues are among the greatest problems now facing humanity – which is why these issues need to be considered with regard to “smart cities,” either for the development of new urban centers or for the transformation of existing cities. The book not only discusses the importance of integrating sustainability principles in the urban design process, but also demonstrates their application to the development of sustainable cities. As such, the book offers essential information and a source of inspiration for all those who want to build more sustainable cities.

**Stochastic Finance** Oct 08 2020 Since the pioneering work of Black, Scholes, and Merton in the field of financial mathematics, research has led to the rapid development of a substantial body of knowledge, with plenty of applications to the common functioning of the world's financial institutions. Mathematics, as the language of science, has always played a role in the development of knowledge and technology. Presently, the high-tech character of modern business has increased the need for advanced methods, which rely to a large extent on mathematical techniques. It has become essential for the financial analyst to possess a high degree of proficiency in these mathematical techniques.

*Tempo* Jun 27 2022

**Facing Global Environmental Change** Apr 13 2021 The year 2007 could perhaps accurately be described as the year when climate change finally received the attention that this challenge deserves globally. Much of the information and knowledge that was created in this field during the year was the result of the findings of the Fourth - sessment Report (AR4) of the Intergovernmental Panel on Climate Change (IPCC), which were disseminated on a large scale and reported extensively by the media. This was the result not only of a heightened interest on the part of the public on various aspects of climate change, but also because the IPCC itself proactively attempted to spread the findings of its AR4 to the public at large. The interest generated on the scientific realities of climate change was further enhanced by the award of the Nobel Peace Prize to the IPCC and former Vice President of the US, Al Gore. By taking this decision in favour of a leader who has done a great deal to create awareness on c- mate change, and a body that assesses all scientific aspects of climate change and disseminates the result of its findings, the Norwegian Nobel Committee has clearly drawn the link between climate change and peace in the world.

*Proceedings of Seventh International Congress on Information and Communication Technology* Oct 20 2021 This book gathers selected high-quality research papers presented at the Seventh International Congress on Information and Communication Technology, held at Brunel University, London, on February 21–24, 2022. It discusses emerging topics pertaining to information and communication technology (ICT) for

managerial applications, e-governance, e-agriculture, e-education and computing technologies, the Internet of Things (IoT) and e-mining. Written by respected experts and researchers working on ICT, the book offers a valuable asset for young researchers involved in advanced studies. The work is presented in four volumes.

**BASA 2020 Feb 21 2022** This proceeding contains selected papers of The International Seminar On Recent Language, Literature, And Local Culture Studies In New Normal "Kajian Mutakhir Bahasa, Sastra, dan Budaya Daerah di Era Normal Baru (BASA)" held on 4 November 2020 with virtual conference in Solo, Indonesia. The conference which was organized by Sastra Daerah, Faculty of Cultural Sciences Universitas Sebelas Maret. The conference accommodates topics for linguistics in general including issues in language, literature, local cultural studies, philology, folklore, oral literature, history, art, education, etc. Selecting and reviewing process for the The International Seminar On Recent Language, Literature, And Local Culture Studies in New Normal "Kajian Mutakhir Bahasa, Sastra, dan Budaya Daerah di Era Normal Baru" was very challenging in that it needs a goodwill of those who were involved in such a process. More than ten experts were invited in reviewing, giving suggestions for revision and at last selecting the papers. On that account, we would like to forward our appreciation and our gratefulness to such invited experts for having done the process. Papers in the proceeding are expected to give academic benefits, especially in broadening the horizon of our understanding in language, literature, and local culture studies in new normal. We realize that what we are presenting for the publication is still far from being perfect. Constructive criticism is very much welcome for improvement. Finally, the committees thank for the participation and congratulate for the publication of the papers in the proceedings of BASA#4-2020. The committees also thank all those who have supported and actively participated for the success of this event. Hopefully these Proceedings can be used as references in developing technology and improving learning activities in the fields of education, social, arts and humanities.

**Past and Present in DeNOx Catalysis: From Molecular Modelling to Chemical Engineering** Dec 30 2019 This book offers an overview of the state of the art in the field of DeNOx catalysis in order to focus novel orientations, new technological developments, from laboratory to industrial scale. A particular attention has been paid towards the implementation of catalytic processes for minimising NOx emissions either from stationary or mobile sources under lean condition to meet future standard regulations of NOx emissions. In the first part of this book, critical aspects reported in the literature which usually make difficult the achievement of efficient catalytic technologies in those conditions are summarised and analysed in order to two separate new perspectives. The second part deals with fundamental aspects at molecular level. A better understanding of the reactions involved under unsteady-state conditions is probably a pre-requisite step for improving the performances of the actual processes or developing original ones. The development of powerful in situ spectroscopic techniques is of fundamental interest for kinetic modelling. Correlations between spectroscopic and kinetic data with those obtained from theoretical calculations are reported. Some illustrations emphasise the fact that these comparisons may help in determining the nature of the catalytic active sites and building predictive tools for simulations under running conditions. The latter part of this book will be illustrated by different practical approaches covering various aspects related to the catalysts preparation and the development of alternative technologies which include industrial considerations. - New technological developments for investigating catalytic reactions in transient conditions (in situ and operando spectroscopic techniques) - Concerted approaches in DeNOx catalysis - How academic aspects (kinetic, in situ spectroscopic measurements) can provide useful information for practical applications - Comparison of different approaches provided by academic and industrial partners

**Parental Care and the Best Interests of the Child in Muslim Countries** May 15 2021 This book is the first analysis of parental care regimes in Muslim jurisdictions, both in a comparative and country-specific sense. It contains the proceedings of a workshop on Parental Care and the Best Interests of the Child in Muslim Countries that the Max Planck Research Group "Changes in God's Law: An Inner-Islamic Comparison of Family and Succession Law" hosted in Rabat, Morocco in April 2015. This workshop saw a total of 15 country reports presented on questions of custody, guardianship and their development within different Muslim jurisdictions (ranging from Indonesia to Morocco), a number of which are included in full in the book. Each of these country reports contains a historical perspective on the evolution of domestic rules regarding custody and guardianship, and on the introduction and development of the notion of the best interests of the child. Most importantly, the prevailing legal norms, both substantive and procedural, are explored and particular attention is given to legal practice and the role of the judiciary. In addition to a selection of country reports from the workshop, the volume includes two comparative analyses on questions of parental care in both public and private international law. With a high practical relevance for legal practitioners working in the area of cross-border custody disputes and the most up-to-date assessment of parental care regimes beyond a pure analysis of statutory law, this book combines a number of country reports authored by experts who have worked or are still based in the respective countries they are reporting on and thus contains in-depth discussions of legal practice and custody law in action. Nadjma Yassari is Director of the Research Group "Changes in God's Law: An Inner-Islamic Comparison of Family and Succession Law" while Lena-Maria Möller and Imen Gallala-Arndt are Senior Research Fellows at the Max Planck Institute for Comparative and International Private Law in Hamburg and the Max Planck Institute for Social Anthropology in Halle respectively.

**National Union Catalog** Aug 25 2019

**Rock Art Studies: News of the World VI** Sep 06 2020 Like previous series entries, this volume covers rock art research and management all over the world over a 5-year period, in this case 2015-19. Contributions once again show the wide variety of approaches that have been taken in different parts of the world and reflect the expansion and diversification of perspectives and research questions.

**ICIS 2020** Dec 22 2021 As an annual event, The 2nd International Conference on Islamic Studies (ICIS) 2020 continued the agenda to bring together researcher, academics, experts and professionals in examining selected theme by applying multidisciplinary approaches. In 2020, this event will be held in 27-28 October at IAIN Ponorogo. The conference from any kind of stakeholders related with Islamic Studies, Education, Political, Law and Social Related Studies. Each contributed paper was refereed before being accepted for publication. The double-blind peer reviewed was used in the paper selection.

**Archaeology in Malay Archipelago and Beyond (Penerbit USM)** Nov 08 2020 Archaeology in Malay Archipelago and Beyond In Archaeology in Malay Archipelago and Beyond, researchers from various fields incorporate key research findings to examine archaeological in the region of Malay Archipelago and her surroundings. Drawing on works from rock art researches, historical seaport, latest archaeological sciences, cultural study and contemporary heritage management issues, this book provides illuminating insights into contemporary archaeological topics and issues in recent years.

**Molten Salt Reactors and Thorium Energy** Dec 02 2022 Molten Salt Reactors is a comprehensive reference on the status of molten salt reactor (MSR) research and thorium fuel utilization. There is growing awareness that nuclear energy is needed to complement intermittent energy sources and to avoid pollution from fossil fuels. Light water reactors are complex, expensive, and vulnerable to core melt, steam explosions, and hydrogen explosions, so better technology is needed. MSRs could operate safely at nearly atmospheric pressure and high temperature, yielding efficient electrical power generation, desalination, actinide incineration, hydrogen production, and other industrial heat applications. Coverage includes: Motivation -- why are we interested? Technical issues -- reactor physics, thermal hydraulics, materials, environment, ... Generic designs -- thermal, fast, solid fuel, liquid fuel, ... Specific designs -- aimed at electrical power, actinide incineration,

thorium utilization, ... Worldwide activities in 23 countries Conclusions This book is a collaboration of 58 authors from 23 countries, written in cooperation with the International Thorium Molten Salt Forum. It can serve as a reference for engineers and scientists, and it can be used as a textbook for graduate students and advanced undergrads. Molten Salt Reactors is the only complete review of the technology currently available, making this an essential text for anyone reviewing the use of MSR and thorium fuel, including students, nuclear researchers, industrial engineers, and policy makers. Written in cooperation with the International Thorium Molten-Salt Forum Covers MSR-specific issues, various reactor designs, and discusses issues such as the environmental impact, non-proliferation, and licensing Includes case studies and examples from experts across the globe

**Climate Change and Cities** Aug 06 2020 Urban areas are home to over half the world's people and are at the forefront of the climate change issue. The need for a global research effort to establish the current understanding of climate change adaptation and mitigation at the city level is urgent. To meet this goal a coalition of international researchers - the Urban Climate Change Research Network (UCCRN) - was formed at the time of the C40 Large Cities Climate Summit in New York in 2007. This book is the First UCCRN Assessment Report on Climate Change and Cities. The authors are all international experts from a diverse range of cities with varying socio-economic conditions, from both the developing and developed world. It is invaluable for mayors, city officials and policymakers; urban sustainability officers and urban planners; and researchers, professors and advanced students.

**The Passage of Literature** Sep 30 2022 Through a set of comparative studies of the fiction of Joseph Conrad, Jean Rhys, and Pramoedya Ananta Toer, *The Passage of Literature* explains the interrelation between English, Creole, and Indonesian formations of literary modernism, arguing that each passage of literature is the site of contest between competing genealogies of culture.

**Computational Intelligence in Data Mining - Volume 1** Mar 13 2021 The contributed volume aims to explicate and address the difficulties and challenges for the seamless integration of two core disciplines of computer science, i.e., computational intelligence and data mining. Data Mining aims at the automatic discovery of underlying non-trivial knowledge from datasets by applying intelligent analysis techniques. The interest in this research area has experienced a considerable growth in the last years due to two key factors: (a) knowledge hidden in organizations' databases can be exploited to improve strategic and managerial decision-making; (b) the large volume of data managed by organizations makes it impossible to carry out a manual analysis. The book addresses different methods and techniques of integration for enhancing the overall goal of data mining. The book helps to disseminate the knowledge about some innovative, active research directions in the field of data mining, machine and computational intelligence, along with some current issues and applications of related topics.

**nCOV 2020** Nov 20 2021 The Seminar Nasional of The Emerging of Novel Corona Virus (2019-nCoV) or SNCOV in collaboration with PPI Taiwan is a conference of tourism health and Social Science provide a forum for publishing research articles or review articles that improving and alert to the threat of new viruses, especially Wuhan nCoV and impact to all Aspect. This conference has been held by Faculty of Medical and Science Universitas Warmadewa and support by PPI Taiwan. The conference is held on February 11th to 12th 2020. This conference encompasses original research articles, review articles, and short communications, including The current situation of 2019-nCoV: counting the risk of transmission; Travel warning: impact to the tourist destinations; The Outbreak of 2019- nCoV: Prevention in the Indonesian Borders; The immune response against nCoV infections: into the eye of cytokine storm; The zoonosis of Novel Corona Virus and Beyond; Management, prevention and control of the Novel Corona Virus; Emerging virus: the Novel Corona Virus Travel health development in Indonesia; and Travel medicine: past, present and future. The Seminar Nasional of The Emerging of Novel Corona Virus (2019-nCoV) involves a number of competent keynote speaker and invited speaker. The paper collected are participated from various authors who are interested in the specified topic.

**Proceedings of Indonesian Association of Geologists** Apr 01 2020

**NEW MODEL OF SHARIA BANKING STRATEGY IN INDONESIA: KPPS ONLINE REPORT** Jul 29 2022 This book is focused on Sharia Banking Strategy to face ASEAN Economic Community (AEC). This topic is discussed broad and deep at the same time to give better understanding for economic and business student as well as lecturer and practitioner. A new strategy called KPPS Strategy is found by research based on this book.

**Challenges of Governance** Feb 09 2021 This book presents a varied and multi-dimensional view of challenges of governance in Southeast Asia and ASEAN through the variety of disciplines and nationalities involved. In light of 50 years of regional collaboration and integration as the member states of ASEAN seek to chart out a future path for the region, this book is dedicated to showcasing different challenges to governance that occur due to internal and external pressures for the various member states. The editors are particularly interested in the multi-level governance challenges on issues of democracy, equity, and sustainability, the adaptation of policies and norms to fit an ASEAN way, and the changing roles of civil society and citizens in this process of seeking a common identity and voice. The book is divided into four sections. The first section introduces the fundamental political institutional dynamics that are in play within the region and the interplay between regional forces and national norms. The second section tackles the economic and legal discourses that various member states face in relation to external and internal pressures related to international and regional trade and industry. The third section focuses on issues of sustainability and equity resulting from the vast socio-spatial differences in the varied cities and regions of member states. In the final section, the authors discuss dilemmas resulting from economic growth in exploitative industries and the impact that has on the local and regional community through the lenses of inclusivity and justice. Written by a diverse collection of policy makers, researchers, educators and activists from the regions discussed, this book provides an authoritative first-hand analysis of key challenges to governance in Southeast Asia and ASEAN. As such, this volume is an excellent resource for academics, advanced masters and PhD candidates interested in the region, and major Southeast Asian research institutes and centers as well as policy makers and influencers at both national and regional levels within the region.

**ICON 2021** Nov 28 2019 This proceedings is a forum for researchers, lecturers, students and practitioners to exchange ideas and the latest information in their respective areas with prospective papers that give contributive impact on the development of economic and education.

**The SV40 Replicon Model for Analysis of Anticancer Drugs** Aug 30 2022 This book provides the most up-to-date review of the simian virus 40 (SV40) minichromosome as a model for the mammalian chromosome in studies of DNA replication. It focuses on disruption of DNA replication by anticancer drugs and DNA-damaging agents. There is a strong emphasis on the unique advantages of SV40 as an experimental system for the analysis of these classes of anticancer drug mechanisms. The new high-resolution gel electrophoresis methods for the analysis of SV40 DNA replication are covered in detail to aid readers in designing and interpreting similar experiments. Presents unique advantages of SV40 as an experimental system for the study of classes of anticancer drugs Details new high-resolution gel electrophoresis methods for the analysis of SV40 DNA replication Provides details to help the reader design and interpret similar experiments

Dictionary of Food Compounds with CD-ROM, Second Edition Jan 23 2022 The increasing world population, competition for arable land and rich fishing grounds, and environmental concerns mandate that we exploit in a sustainable way the earth's available plant and animal resources for human consumption. To that end, food chemists, technologists, and nutritionists engage in a vast number of tasks related to food availability, quality, safety, nutritional value, and sensory properties—as well as those involved in processing, storage, and distribution. To assist in these functions, it is essential they have easy access to a collection of information on the myriad compounds found in foods. This is particularly true because even compounds present in minute concentrations may exert significant desirable or negative effects on foods. Includes a foreword by Zdzislaw E. Sikorski, Gdańsk University of Technology, Poland; Editor of the CRC Press Chemical & Functional Properties of Food Components Series. Dictionary of Food Compounds, Second Edition is presented in a user-friendly format in both hard copy and fully searchable CD-ROM. It contains entries describing natural components of food raw materials and products as well as compounds added to foods or formed in the course of storage or processing. Each entry contains the name of the component, the chemical and physical characteristics, a description of functional properties related to food use, and nutritional and toxicological data. Ample references facilitate inquiry into more detailed information about any particular compound. Food Compounds Covered: Natural Food Constituents Lipids Proteins Carbohydrates Fatty acids Flavonoids Alkaloids Food Contaminants Mycotoxins Food Additives Colorants Preservatives Antioxidants Flavors Nutraceuticals Probiotics Dietary Supplements Vitamins This new edition boasts an additional 12,000 entries for a total of 41,000 compounds, including 900 enzymes found in food. No other reference work on food compounds is as complete or as comprehensive.
